Manbaskets

Stanley Appleton's Manbaskets are built to suit your needs.

Our Manbaskets are made from plate steel and structural steel. They are equipped with a single bar lifting door, safety harness hookup, optional-safety chain and 8" kickplate on all sides.

Stanley Appleton makes sure all Manbaskets are NDT Tested and fully certified.

We give you the option of a grated or diamond plate floor in the colour of your choice.

Stanley Appleton's Manbaskets are available in your choice of Steel or Aluminum.

Your options include:

- Size
- Colour
- Customized ID Plate
- Grated or Diamond Plate floor
- From 500 lbs Certified to 3500 lbs Certified
